

Vibro-EM.3

ANTI-VIBRATION RUBBER MOUNT (Type 3)

Description

Vibro EM.3 is a vibration control mount and it is made with a combination of rubber and metal bonded parts. It can be used to absorb vibration produced by air handling units, air conditioning units, pumps, air compressors, ventilators, transformers, motor generators, cutting machines, printing machines, lifts, etc, especially where machine fastening is necessary.

The top and bottom surface has special lining that increases friction and reduces the surface slipping.

Applications

The antivibration elastic mount **Vibro EM.3** can be used to absorb vibration in air handling units, air conditioning units, pumps, air compressors, ventilators, transformers, motor generators, cutting machines, printing machines, lifts, etc. especially when machine fastening is necessary.

Vibro-EM.3 Selection Table

TYPE (Color Code)	MAXIMUM LOAD (Kp*)
Vibro-EM.3 (Blue)	200
Vibro-EM.3 (White)	350

*1 kp = 10 N

Dynamic Characteristics

Deflection 3 mm at maximum load
Natural Frequency: 10 Hz at maximum load

Design and Production according to Quality Management System ISO 9001.2008 & Environmental Management System ISO 14001.2004
